Box Patent Application  
Washington  
D.C. 20231  
United States of America

10,086220

Dear Sir/Madam,

I recently submitted an application for a utility patent. The title of the invention on the application is "Tandem Powered Power Tilting Aircraft". I am named as the inventor in the application. The specification contained 94 pages and 10 drawings and was accompanied with a check for an amount of \$1,347 (USDollars). The application was delivered to the USPTO on 02/28/2002 by courier.

The Transmittal form indicated that the application contained a total of 85 claims. However, since forwarding the application for filing at the USPTO I have discovered that claim numbering had been repeated accidentally.

The number 85 had been used two times, once on page 93, and once on page 94. To correct this error, I have re-numbered the claim that appeared on page 94 such that it is now numbered as claim number 86. A re-printed page 94 now showing that claim re-numbered as 86 is attached to this letter. A marked-up copy of the revised page 94 is also attached. The wording of the claim has not been altered.

The number 73 had been used 4 times, once on page 87, and three times on page 88. To correct this error, I have re-numbered the claims that had appeared on page 88 as claim 73 three times. The claims have now been re-numbered as 87, 88, and 89, and have been printed on a page numbered 95 which is attached to this letter. These claims did not have other claims depending on them and the wording of the claims has not been altered. A revised page number 88 is also attached. The revised page numbered 88 shows claim 74 as it appeared on page 88 as filed. The three claims numbered 73 have been removed from the revised version of page 88. Marked-up copies of pages 88 and 95 are also attached.

I have attached a check for the amount of \$36 to cover the cost of the extra claims, and I would appreciate it if these pages can be entered as replacement pages to form part of the application.

Another error was discovered on page 1 of the "Declaration for Utility of Design Patent Application" form. Reference was made to the prior foreign application number PR3455. The filing date

RECEIVED  
MAR 26 2002  
GROUP 3600

36.00 up

05/25/2002 SSA/NDARA 00000010 10086220  
01 TC:203

for that application was incorrectly shown as 02/01/2001. The date of filing in Australia of PR3455 was 03/01/2001. A certified copy of that application numbered PR3455 accompanied the application that was delivered on 02/28/2002. I have attached a corrected copy of page 1 of the declaration. I have crossed out the incorrect date and entered the correct date, and initialled the change. I would appreciate it if the corrected page of the declaration could be entered as a replacement for page 1 of the delcaration that was originally submitted.

Yours sincerely,

T. Kusic
